Boyolali, Jawa Tengah, Indonesia

I am a fresh graduate in Informatics Engineering from Universitas Dian Nuswantoro, and I am passionate about Fullstack Web Development, with a strong focus on JavaScript technologies. My expertise covers both frontend and backend development, enabling me to create seamless user experiences while ensuring the efficiency and functionality of server-side operations. I am eager to bring my skills into an entry-level Fullstack Developer role.

Experiences

Virtual Internship Rakamin Academy x BTPN Syariah May 2024 - Jun 2024

Fullstack Web Developer

- Developed User Interface using VueJS
- Completed the assigned tasks using the Java programming language
- Created Restful API with Go Language and Gin Framework
- Connected Go to the PostgreSQL Database using GORM as the ORM
- Finished all the task and Final Task on time

Binar Academy Bootcamp Feb 2023 - Jul 2023

Fullstack Web Developer

- Developed the User Interface using ReactJS by slicing designs from Figma
- Enhanced the interface's styling using Bootstrap
- Mapping data from payload API to User Interface
- Structured the frontend design and handled user input to interact with the backend API
- Built a Restful API using ExpressJS to facilitate seamless communication between Frontend and Backend
- Documented the Resful API using Swagger for easy developer integration
- Designed the ERD according to the requirements of the project
- Created Database using PostgreSQL and Sequelize ORM according to the ERD that was designed

Fresh Graduate Academy - Kominfo Jul 2022 - Aug 2022

Database Design & Programming with SQL

- Designed the Entity Relationship Diagram according to the requirements
- Developed the Relational Database using Oracle Database
- Implemented Nomalization Database to avoid redundancy
- Wrote SQL using Oracle SQL according to proper use and function

Education Level

Universitas Dian Nuswantoro - Semarang, Indonesia Jul 2020 - Jul 2024

Bachelor Degree in Informatics Engineering

SMA N 1 Boyolali - Boyolali, Indonesia Jul 2017 - Jun 2020

Mathematics and Natural Sciences

Skills, Achievements & Other Experience

- **Projects** (2024): Built Web App to search a movie using ReactJS and TMDB API
- **Projects** (2024): Built Web App named Poliklinik to register and medical records patients using Javascript
- **Projects** (2024): Developed Restful API using Go as the Final Task of Virtual Internship Rakamin Academy
- **Projects** (2023): Developed a flight ticket booking application as the Final Task of Binar Academy Bootcamp
- **Achievements**  (2024): Certified Fullstack Developer Project Based Intership by Rakamin Academy
- **Achievements**  (2024): Certified Web Developer by BNSP
- **Achievements**  (2023): Certified Fullstack Web Developer by Binar Academy
- **Achievements**  (2022): Certified Database by Oracle
- **Achievements**  (2022): Certified Database Design & Programming with SQL
